

Active Countries

Karatbars has the ambition and vision to be able to sell gold to people all over the world whether they want it delivered or safely stored in a depot.

This task, however, is not done overnight as we have to ensure that all laws and regulations in each country is followed to the point.

If your country is not on the list at the moment, don't worry as we are working hard and aggressively to expand worldwide within a very short period of time.

In the meantime you might have a close look at our free Affiliate program that already now enables you to refer Affiliates worldwide and inform them about the benefits of gold.

Total active countries: 137
